

STAR Program 2010

Teheran, Iran

Specialized Training in Advances in Radiology

Day 1 (14th October)

09:00	–	09:45	Registration
09:45	–	10:00	Local Dignitaries – Welcome Introduction of speakers – Hans Ringertz, M.D.
10:00	–	10:45	Giuseppe Scotti M.D. Role of advanced MR techniques in surgical planning and management of brain tumors
10:45	–	11:30	Pek-Lan Khong M.D. Imaging of neonatal encephalopathy
11:30	–	12:15	Giuseppe Scotti M.D. Role of neuroradiological techniques in diagnosis and treatment of stroke
12:15	–	13:00	Lunch
13:00	–	13:45	Christoph Becker M.D. Advances in functional and dual energy CT
13:45	–	14:30	Giuseppe Scotti M.D. Intracranial vascular malformations: role of MR in treatment planning and follow up
14:30	–	15:15	Heinz-Peter Schlemmer M.D. Whole-body imaging in oncology: a blessing or a curse ?
15:15	–	15:45	Coffee Break
15:45	–	16:30	Christoph Becker M.D. Current & future application of cardiac CT
16:30	–	17:15	Heinz-Peter Schlemmer M.D. State-of-the-art MRI of the liver
17:15	–	18:00	Pek-Lan Khong M.D. Imaging of malignant lymphoma
18:00			Adjourn

Day 2 (15th October)

09:00	–	09:45	Christoph Becker M.D. Abdominal intervention with rotation C-arm CT
09:45	–	10:30	Heinz-Peter Schlemmer M.D. MR imaging of prostate cancer: potentials and limits
10:30	–	11:00	Coffee Break
11:00	–	11:45	Pek-Lan Khong M.D. Utility of PET/CT imaging in cancer
11:45	–	12:30	Hans Ringertz M.D. Biomedical imaging research, today and tomorrow
12:30	–	14:00	Lunch
14:00	–	15:00	Workshops 1 st run
15:00	–	16:00	Workshops 2 nd run
16:00	–	16:30	Closing / words of gratitude

Workshops

Christoph Becker M.D.	Questions and discussion of given presentations as well as discussion of interesting and difficult cases in cardiovascular imaging
Pek-Lan Khong M.D.	Questions and discussion of given presentations as well as interesting and educational PET/CT case files
Hans Ringertz M.D.	Questions and discussion of given presentations as well as interesting and educational cases in pediatric radiology
H.-P. Schlemmer M.D.	Questions and discussion of given presentations as well as discussion of diagnostic concepts and difficult cases of whole-body imaging in oncology
Giuseppe Scotti M.D.	Questions and discussion of given presentations as well as challenging cases of cranial and spinal pathology
